**Date:** **Pages :** 1

**Subject:** Practice service change due to Influenza A H1N1

The information contained in this fax message is intended for the named addressee only. If you are not the intended recipient you must not copy, distribute, take any action reliant on, or disclose any details of the information in this fax to any other person or organisation. If you have received this fax in error, please notify us immediately then shred or dispose of the fax in an unreadable format.

## What's your flu status?

To assist Queensland Health's planning in the event that the Influenza A H1N1 outbreak should become more severe, we are asking all **Practice Managers to let us know if your practice closes or changes service delivery** over the next few months.

This information will be provided to Queensland Health's 'Office of Health Protection – Incident Room', which is responsible for the overall management of the influenza response, on a weekly basis.

The information we provide will help to identify any areas of concern, such as regions where primary care services may be stretched, and assist in making arrangements for these regions to ensure health and medical services are available to the community (e.g. practices covering for the affected region, referrals to other services, locum arrangements).

We appreciate your assistance and attention to this.

**If your practice changes service delivery, please complete and fax to 07 3630 7816.**

Practice \_\_\_\_\_ Contact person \_\_\_\_\_

Please tick:

- Practice is closed due to Influenza a H1N1. Practice is expected to re-open on \_\_\_\_\_
- Services are now limited to flu and respiratory patients only
- Services are now limited to non-flu patients only
- Practice has re-opened for usual service
